115th Street-Pulaski Road Intersection Reconstruction

CHICAGO – The Illinois Department of Transportation (IDOT) announced that an intersection reconstruction project at 115th Street and Pulaski Road, in Chicago and Alsip, will begin, weather permitting, on Wednesday, June 1.

In order to complete the work, lanes will be shifted at times through the work zone. Temporary reductions in lane widths will be necessary during the daytime hours.

The project consists of widening the existing lanes and adding turn lanes to both directions of 115th Street. Sidewalk and drainage improvements will be made. Traffic signals also will be modernized.

The work is scheduled to be completed in late November.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
